

An International Standard Quality HELIX Locking Plate System is Produced by Siora Surgicals Pvt. Ltd.

This affordable range of locking plate system is admired by numerous orthopedic surgeons and is available for export as well

Orthopedic implants are among the most commonly used medical devices. They are required for the surgical treatment of different types of fractures that could be seen in any of the bones present in our bodies. These implants can be made using metals, non-metals, and a combination of both. Besides this, they are designed in different shapes & sizes that are made according to the anatomies of different bones. All the implants made are segregated into different categories based on their use.

One of the implants categories that are most used is the locking plate system. Orthopaedic implants that fall under this category are recommended for the treatment of different types of long bone and short bone fractures.

Locking implants are known to eliminate the need for the compression of plate/bone. Besides this, they are also admired for ensuring good biomechanical stability.

Siora Surgicals Pvt. Ltd. is a renowned orthopedic implants manufacturer in India. The company produces a high-quality range of HELIX Locking Plate System in stainless steel and titanium. Siora is also known to manufacture hundreds of other types of CE-certified orthopedic devices that are also available for exports to distributors based in other countries. Some of the trauma implants that fall in this category include:

- Locking Head Screw – Self Tapping
- Cortical Screw – Self Tapping
- Small Locking Compression Plate
- Locking T – Plate Oblique Angled
- Locking T – Plate Right Angled
- Locking Olecranon Plate Without Extension
- Locking Cloverleaf
- Locking Extra – Articular Distal Humerus Plate
- Locking Proximal Radial Head Rim Plate
- Locking Proximal Radial Head Neck Plate
- Locking Clavicle Hook Plate
- Locking Dorsal Distal Radius T – Plate Head 3 Holes

The above mentioned are some of the orthopedic devices that Siora Surgicals Pvt. Ltd. offers in the HELIX Locking Plate System category. They are available in different sizes and special coatings like HA coating can also be provided as per the client's demand.

Siora Surgicals Pvt. Ltd. is an experienced manufacturer of a huge range of orthopedic implants and instruments in India.
