## BEST LANDSCAPING TIPS FOR YOUR GARDEN DESIGNS:

We provide you with some of the best landscaping tips that would suit your garden and your pockets.

## PLANT RIGHT

“Gardening is the art that uses flowers and plants as paint, and the soil and sky as canvas” – Elizabeth Murray. The first step to getting the perfect garden landscape is to plant right. You can start by planting a small flowerbed and adding a small water feature. You can connect with the best landscaper in Hampton and decide on the budgeting and the use of space correctly while planning a beautiful landscape.

## LANDSCAPE EDGING

Landscape edging is a visual transition from the walkway to the lawn. Whether it is your backyard or your front lawn, make the best of it by opting for landscaping edging. The edging can be used around flower beds and in different colors or patterns.

# THINK CREATIVE AND GET THE RIGHT ASSISTANCE

The most important tip is to think out of the box and be creative. A small backyard can also look and feel spacious if designed in the right way. Whether you plan on having a vertical garden or enhancing the look of your fences or even planning to place a beautiful outdoor dining area, remember a professional landscaper in Hampton would assist you and provide you with the perfect plan.
