Relax in ultimate luxury while taking in the beautiful sites of the stunning South of France on one of our river cruises along the Canal Du Midi. A river cruise along with the World Heritage Canal Du Midi is a great place to see some of the most wonderful sites the South of France has to offer, including historic towns, picturesque countrysides, and inspiring diverse landscapes.

Highlights of the Canal Du Midi:

Toulouse - Start your trip with a visit to Toulouse, named the 'pink city' due to the dreamy pink bricks used in the architecture of the city. Toulouse is a relaxed and laid-back city and is the perfect place to unwind during your trip.

Languedoc-Roussillon - If you are looking for ultimate relaxation while on your cruise, the Languedoc-Roussillon region is the place to go to sample some delicious wines and visit France's stunning vineyards, where a third of France's wine is produced, including most of France's organic wines.

Carcassonne - For an unforgettable experience, what could be more impressive than a visit to the famous historic city of Carcassonne to see the romantic turrets and the medieval fortified citadel. A world heritage site, Carcassonne is the largest walled city in the whole of Europe.

Trèbes - Experience the very best of French culture at Trèbes, where you can try some stunning olive oil and local delicacies such as honey, pates, and traditionally crafted beers.

Packed with many sites and adventures to find, a cruise on the Canal Du Midi will give you a unique trip that you will be sure to cherish and never forget.

Our river cruise barges are unique and luxurious. They are guaranteed to provide an unforgettable holiday experience, allowing you to explore the delights of the Canal du Midi at your own pace in ultimate comfort.
