The big loop (3h30)

Your expert wine guide driver will pick you up from your home (Montpellier, Sète, Pézenas and surroundings) in a 2CV and will accompany you throughout the excursion to answer your questions about the terroirs and wines of Languedoc. You can enjoy the scenery of the hinterland thanks to the convertible top. You will visit and taste the wines of two traditional Languedoc wineries. If you wish, it is possible to combine a visit to a wine estate with an olive oil producer or an oyster farmhouse on the edge of the Thau lagoon (depending on the point of departure), we are here to adapt the program as best as possible to your desires in order to make the experience unforgettable.

The authentic (2h)

Meet directly in our vineyard in Villeveyrac, Domaine Cazalis de Fondouce. After a presentation of the property and its history, we will go for a nice ride in 2CV through the vineyard in a preserved environment between scrubland, vineyards, Mediterranean villages, and an abbey. Back at the estate, you can taste the estate's wines comfortably seated under the pergola in the shade of the pines and facing the vineyard.
